ABHISHEK UPADHYAY

B.Tech Computer Science and Engineering Graduate | Developer | Research Interests

Portfolio | GitHub | LinkedIn

abhishek.upadhyay732@gmail.com | 8340280521

PROFILE

B.Tech graduate in Computer Science and Engineering (2024), interested in web development, programming, artificial intelligence, and scientific research. Builds practical projects while developing skills in software and machine learning, with a focus on turning ideas into useful digital experiences.

EDUCATION

B.Tech in Computer Science and Engineering | Galgotias University | 2024

TECHNICAL SKILLS

Programming and web: Python, JavaScript, HTML, CSS
Computer science: Data Structures, Theory of Computation, Compiler Design
Tools: Git, GitHub

PROJECTS

- **Personal Portfolio | HTML, CSS, JavaScript -** Created a responsive website to present profile, projects, skills, research interests, and an introduction video. Added mobile navigation, visitor-controlled music, and a research certificate link.
- **Heart Disease Prediction | Python, Machine Learning -** Explored classification models for heart disease prediction using health-related data.

RESEARCH PUBLICATION

Predictive Modeling of Heart Disease Using Python and Machine Learning | IJFMR, Volume 7, Issue 3, 2025
Certificate of Publication (PDF)

RESEARCH INTERESTS

Predictive modeling of heart disease, machine-learning classification, artificial intelligence, and scientific research.

PROFESSIONAL FOCUS

Continuous learning, project-based practice, and building clear, useful digital experiences.
